Fungi Meet – An enthusiastic group of members met at Hanningfield and successfully foraged in the woods for suitable subject matter. How can photographing something that doesn’t move be so tricky? Two members are shown concentrating on the task in hand. Their fungi images are under wraps ready for November’s Digital Competition. Recent rainy conditions have produced a good crop of fungi so take a walk in a damp, dark wood and be amazed at what you can find. [Photos courtesy of Dave.]
